

Showcase of Excellence 2024

When our readers requested a special annual feature highlighting providers who offer quality products and services for private colleges and universities, we were happy to oblige. This “Showcase of Excellence,” which appears each year in our June issue, is filled with case studies and product showcased from our sponsors, who represent top service and product providers exclusive to the higher education market.

These pages exhibit more in-depth information on these quality providers and their products, along with demonstrative case studies that will help administrators in higher education fulfill their mission of providing excellent experiences throughout their facilities. And—just as readers may face the challenge of not having enough time to communicate every single aspect of their higher learning meccas with students and communities—we were similarly limited by available space in this issue and could not include every single one of the companies that we know can help college and university decision-makers. Our hope, however, is that readers will enjoy the information that space allows us to include, and we know this information will help higher ed administrators continue to be successful in providing quality facilities and experiences to the many lives their colleges and universities touch.

Be. Overly. Protected.

Acoustic Doors

LIGHTER

than the competition

FASTER

than you've ever gone before

SMARTER

than the average manual vacuum

learn more at hammerheadvac.com

If your world has one of these

You need one of these.

Use the industry standard. For 20 years, Hammer-Head pool cleaners have been the #1 choice of waterpark, club, resort, military, and facility managers from Key West to Okinawa.

Perfectly suited for quick and easy spot cleaning or major storm cleanup, our manual vacuums are also ideal for lazy rivers. There are no valves to set, no pumps to prime, and no dangerous power cords. Start cleaning instantly and put an end to the usual runaround.

Hammer-Head cleaning units are completely self contained and portable, so you can vacuum even when electrical and water service are unavailable.

THE RESORT-30™

The powerful 12 volt Hammer-Head pool cleaning machine will reduce your cleaning session by 50% or more. Sand, leaves, sticks, and even coins are quickly pulled into our high-capacity reusable debris bag, saving you time and effort, and saving the pool's filtration system from unnecessary strain.

Big jobs or small, the Hammer-Head can handle it all — faster!

Ask your pool equipment supplier about Hammer-Head Resort-30 cleaners or visit us at hammerheadvac.com to find the dealer that's best for you.

Proudly made in the USA since 1997.

University Series™ steel fire-rated and non-rated windows and doors

ARCHITECT: David M. Schwarz Architects, Inc.
PHOTOGRAPHER: Steve Hall, © Hall + Merrick

UNIVERSITY CAMPUS EXPANSION

NASHVILLE, TENNESSEE

At a major university residential expansion project in the Southeast, collaboration and cooperation among the construction management firm, window and door manufacturer, and installation contractor resulted in several stunning projects recreating the look of the surrounding century-old buildings. All totaled, Hope's Windows, Inc., supplied over 1,200 unique windows made from custom hot-rolled steel profiles and nearly 100 high traffic and fire-rated door assemblies made from 10 and 12 gauge cold-rolled steel.

According to Sean Farrell, senior project manager at Layton Construction, establishing collaborative relationships is key to successful construction projects. One of the best examples of this maxim is a multi-phase university project for which Layton Construction is serving as construction manager. Layton, part of the STO Building Group, is a nationally-ranked commercial contractor with ten offices around the United States. The firm specializes in healthcare, industrial, warehousing, and higher education projects. As construction manager, Layton hires the sub-contractors and manages and oversees the project as part of a team.

“Since we were building windows and doors to make a brand new college, we needed a company with the methodology to produce the product like it was done 100 years ago.”

— Sean Farrell, Sr Project Manager
Layton Construction

Hope's Brian Whalen, Vice President of Sales, acknowledges that the project was a real test of Hope's capabilities. He is especially proud that they Hope's was able to expedite the schedule even in the face of design changes and in the midst of the Covid-19 pandemic. The shop drawing approval process – including preparation of blueprints of windows and doors with all setting conditions, sizes, customized designs, and required testing – took longer than normal. Changes were made along the way that might have pushed back the delivery schedules for some, but Hope's made adjustments during the production process to deliver all materials on time. Whalen gave a nod to Joey Riggan and the team at Alexander Metals, the frame and glass installer team, saying the overall project went extremely smoothly once the frames were on site.

Says Whalen, “It was a fantastic collaboration among all the parties. Hope's worked closely as the manufacturer to fulfill the architect's design vision, and then the installer worked closely with us to make sure everything was installed executed properly.”

HOPE'S®

(716) 665-5124

Hope's® Windows, Inc., is a business based on 100 percent customized work design and manufacturing, Hope's provides a specialized skillset to assist clients in design and production of unique window and door assemblies. Meeting the expectations of Layton Construction in combination with the aesthetic vision of the client and architect was definitely a challenge. The overall experience was a testament to the quality standards of the university and an honor to be a part of. In business since 1912, Hope's had the global experience to make it happen.

Beautiful Pool Water has never been this easy...

..until now.

Introducing the **VANTAGE®** **ACF Series** Calcium Hypochlorite Tablet Feeders

- :: Unmatched water quality
- :: Safer than liquid systems
- :: Runs "Clean" - Less Maintenance!
- :: Simple, Efficient, and Durable
- :: Systems available for ANY size pool
- :: NSF/ANSI Standard 50 Certified
- :: Uses VANTAGE Calcium Hypochlorite Tablets
- :: Majority of Parts are Interchangeable

A complete line of chemicals, including our unique Poly-A Tablets is available.

Thanks in no small part to your input, our introductory ACF-60 model feeder received excellent reviews from the field. So good, in fact, that facility managers and operators, builders, and designers requested the same simplicity of design, reliability and ease of operation in both smaller and larger capacity feeders. Again we listened, and the result is the ACF-18 for commercial systems under 50,000 gallons, and the ACF-250 for systems up to 1,000,000 gallons of water. All three Vantage feeders are NSF/ANSI Standard 50 certified.

MORE INTELLIGENT FIRE SPRINKLER SYSTEMS MAKE SMARTER FACILITIES

COLLECT_{AND}DRAIN[®]

Smarter facilities make better companies. Get started by installing the COLLECT_{AND}DRAIN Model 5500 Automated Auxiliary Drain. Its programmable logic control (PLC) uses a float switch to monitor the water level. When the auxiliary drain is at capacity the PLC activates the valves and drains the collection assembly according to NFPA guidelines, automatically! No more guessing when, or forgetting to maintain your facilities dry system auxiliary drains. The PLC also monitors outside temperatures and utilizes an internal heater to maintain a cabinet temperature well above freezing. Auxiliary drains that are susceptible to freezing and breaking are now protected in a climate controlled environment. Additionally, the locking cabinet protects against potential accidents and vandalism in higher traffic areas, all wrapped in red with the required NFPA signage. Install a Model 5500 now and be ready for winter.

www.agfmfg.com

SMALL ADDITION BIG SAVINGS

FLOODELIMINATOR

The COLLECT^{AND}DRAIN **FLOODELIMINATOR** Model 5900 installs above the auxiliary drain on dry fire sprinkler systems, and acts as a fail-safe just in case a broken auxiliary drain trips the dry valve and releases system water. The **FLOODELIMINATOR** closes when pressurized water interacts with its internal mechanism, releasing only 8 ounces of water per minute into your facility, instead of thousands of gallons. This enables facilities to recover faster with less clean-up, and more importantly, less expense!

www.agfmfg.com

*40 years of innovating safer
products that really work*

Made with soybeans • No harsh chemicals

Convenient to use indoors • Low-odor

BEAN•e•doo Mastic Remover 500MR

- Works on all types of mastic and carpet/tile adhesives

EXCEL Seat Module

A swimmer is captured from an overhead perspective, swimming in a pool lane. The swimmer's arms are extended horizontally, and their legs are also extended, creating a wide, flat shape in the water. The water is a vibrant blue, and the lane lines are visible on either side. The swimmer's reflection is clearly visible on the pool's surface.

SLOAN®

*DRS120 DropSpot™ Bottle Filler with
Bi-level Cooler in Stainless Steel finish.*

DropSpot™

Bottle Fillers & Coolers

Full-on style for full-on hydration.

Elevated by design

We've paired sleek styling with premium materials to elevate your space with a fast way to hydrate. The slim profile creates a seamless water filling experience for interior spaces. Choose from two finish options: everlasting stainless steel or go for a modern aesthetic with the black powder coated finish.

Hygienic hydration experience

Sloan's advanced sensor technology allows for hygienic, hands-free operation. The push bar can be activated at any touch point for enhanced accessibility and high contact components are coated with an antimicrobial finish, reducing germ transmission, to ensure a clean, safe experience.

Maintenance made easy

Give your staff the means to make adjustments with ease. The DRS100 features a swing-open cabinet that provides easy access to the filter and internal components. DRS110 and DRS120 models have a convenient drop-down door that allows for easy filter replacement and a proprietary key that opens the push bar and provides quick access to service parts.

All-in-one Moisture Measuring Tool Kit

Our Recommendation

Ligno-VersaTec: All-in-one:

Pin - Pinless - RH

Anyone needing a versatile, accurate moisture meter will appreciate the multi-function Ligno-VersaTec and its absolute reliability for many years of usage.

With the Ligno-VersaTec, you can select the right measuring mode and the right accessories for the job on hand. This could be tracking moisture problems with the pin electrode or measuring humidity in a crawl space with the precision RH Bluepeg probe. Cupped Floors could be checked using the pinless mode. Pinless search and compare mode could be used for tracking moisture problems after water damage.
